INTERNET ESSENTIALS PROGRESS REPORT FOR 2013

Internet Essentials is our effort to accelerate access to the future that every American deserves—one in which there is ubiquitous availability of the transformative technology of the Internet. We are grateful to all of our partners—teachers, parents, school superintendents, administrators, elected officials, libraries, non-profits, and many more—who share our belief and our mission to get everyone connected and online. Our experience over the last 18 months since we launched Internet Essentials affirms that local communities strongly support this campaign and want to be a part of it.

There is a role for everyone—our company and other communications and technology companies, community organizations, schools, libraries, small businesses, cultural institutions, the faith-based community, and government—in helping to close the digital divide. For those who are connected, living without the Internet for one day is difficult to imagine. But for the millions of Americans who are not yet online, the economic, educational, health, and social benefits of being connected are lost. It is harder to keep up with schoolwork, harder to apply for a job, harder to claim tax credits. That is not right—and we all need to do our part to bridge that gap.

We have now reached a new milestone with over 600,000 low-income Americans connected to the Internet, most for the first time in their lives. That is good, but it is still not good enough. This year, we’re doing even more to make it easier and faster for eligible families to get connected, including expanding eligibility for private, parochial and homeschooled students and developing an online application form that can be completed at a library or community center. We are firm in our commitment to Internet Essentials, and we invite everyone who shares that vision to work with us to create more digital opportunity in America.

Sincerely,

David L. Cohen
Executive Vice President
Comcast Corporation

INTERNET ESSENTIALS SM FROM COMCAST

Internet Essentials from Comcast (InternetEssentials.com) is the nation’s largest and most comprehensive broadband adoption program. It provides low-cost broadband service for $9.95 a month plus tax; the option to purchase an Internet-ready computer for under $150; and multiple options to access free digital literacy training in print, online, and in-person. Eligible families must have at least one child eligible to participate in the National School Lunch Program, including public, private, parochial and homeschooled students. We estimate a total of approximately 2.6 million eligible families live in our service area and therefore could apply for Internet Essentials. To spread the word, we have proactively reached out to more than 4,000 school districts, and over 30,000 schools, to distribute free brochures to families and students. More than 25 million pieces of literature have been shipped to both schools and non-profit partners who can order these materials, available in 14 languages, for free at InternetEssentials.com/Partner.

CONNECTING OUR COMMUNITIES
HERE’S WHAT WE’VE ACCOMPLISHED SO FAR

Increased Internet Adoption
Internet Essentials has connected more than
150,000 households to the power of the Internet.
That’s more than 600,000 children and their families.

New Online Application
This spring, families will be able to request an application for Internet Essentials through an online form at InternetEssentials.com.

Opportunity Cards
Opportunity Cards can be used to purchase Internet Essentials service and provide eligible families with access to the Internet at home.

Expanded Opportunities
“I have actually learned through my son. He’s teaching me as well as we’re teaching each other.”
- Internet Essentials Parent

Strengthened School District Engagement
Over 30,000 schools in 39 states and D.C. are supporting our efforts to close the digital divide.

Over 10,000 people have attended in-person digital literacy training to develop the skills they need to participate in today’s digital society and economy.

“Now I can show my family at home how to use the Internet.”
- Digital Literacy Class Attendee

NEW IN SPRING 2013
Increasing Eligible Households
Now, all households with a student eligible to participate in the National School Lunch Program are eligible for Internet Essentials, including low-income private, parochial and homeschooled students.

New Online Application
This spring, families will be able to request an application for Internet Essentials through an online form at InternetEssentials.com.

Opportunity Cards
Opportunity Cards can be used to purchase Internet Essentials service and provide eligible families with access to the Internet at home.
